CARLSBAD, N. J.

## MILITARY AND NAVAL NOTES.

Fifty-one men enlisted at the Da La station during June.

Serious instructions are reported in Corea.

A thousand tons of war material have been forwarded from London to South Africa.

Marquis Ito, a former premier of Japan, says China's partition is only a question of time.

President McKinley has issued orders to hasten the home-coming of the volunteers from Manila.

The military display to have been given at Waco on the 4th was postponed, owing to the flood, until the 18th.

The Daughters of the Confederacy at Tyler are raising funds to erect a monument to the valor and patriotism of the 231 Confederate soldiers buried there.

An effort to improve Jefferson barracks, at St. Louis, is to be made. The improvements will include electric lights, sewer, buildings and drill grounds.

Gen. H. G. Otis of California, who saw much service in the Philippines, says the insurgents have lost about 50 per cent of their forces by death and desertion.

The battery of the Dallas Artillery company will attend the laying of the cornerstone of the Waco auditorium on the 18th.

Private George McCue, general service, Fort Sam Houston, has been transferred to company K, sixth infantry, and will be sent to the station of that company at Manila.

Adj. Gen. Thomas Scoury commissioned L. A. Daffan as adjutant-camp on the governor's staff, with the rank of lieutenant colonel in the Texas volunteer guard.

Public schools on the American plan have been opened at Manila. About 6000 pupils have begun the course of instruction. English will be taught one hour per day.

The war department has decided to continue the use of Camp Meade, Middletown, Pa., for the benefit of recruits raised in the east for service in the Philippines.

The Porto Rican commissioners, J. J. Henna and M. Zeno Gandia, have issued in pamphlet form a statement of their grievances over existing conditions in Porto Rico.

The president of the town of Santo Nicolas, in the island of Cuba, said to Mr. Sherman of the Philippine commission: "We want peace, food and prosperity. We do not wish to fight. We would be neutral."

A telegram was received at the Dallas recruiting office from Assistant Adj. Gen. Ward asking the recruiting officer to secure as many desirable men as possible for service in the Philippines.

A German paper expresses dissatisfaction with President Minister Von Bismarck's Samoan policy of waiting until order is restored before demanding damages for the arrest of Herr Marquard and others and property losses sustained by German citizens.

In the British house of commons the parliamentary secretary of the foreign office, Rt. Hon. St. John Frederick, replying to a question, announced that Mr. Hunter, the chief police magistrate of the F.R.I. Islands, had been appointed British consul at Apia, Samoa, during the absence of Mr. F. H. S. Maxon.

Comte de Castellane, who married Anna Gould, has written a letter to the prince of Monaco sharply criticizing him for his recent letter to Mrs. Dreyfus, inviting herself and husband to be the prince's guests after Dreyfus shall have been acquitted.

The duke of Orleans, pretender to the French throne, who is taking the water cure at Marienbad, Bohemia, created a sensation with the first automobile seen there. He got his machine on a sidewalk and ran over an old woman.

Secretary Long said that he knew nothing of the reported plan to have the North Atlantic squadron under Admiral Sampson meet Admiral Dewey on the Olympia at the Azores and coast into the United States.

The navy department received a dispatch from Commander Goodrich of the Newark at Valparaiso, saying that the Alacanda sailed from there for Samoa. She carries a steel wharf and sheds in sections to build a coaling station at Pago Pago.

The officers of the North Atlantic squadron understand that Rear Admiral Wm. T. Sampson's plan for the welcome home of Admiral Dewey has been approved by the president, though they have not yet been. It is said, definitely informed to that effect.

# TOLD BY TYPE.

## Tales of Texas Terse and Turned in by Telegraph.

### The Sheriff.

Fort Worth, Tex., July 12.—The Sheriff's Association of Texas has reached its majority. It is now twenty-one years of age, and the body of men who are assembled here as the representatives of the organization which started with a handful of peace preservers nearly a quarter of a century ago, would reflect credit on any kind of gathering in this or any other state.

It will be recalled that the association was organized at Austin. One of its charter members—and there were but very few of them—was Sul Ross, "The Little Cavalryman," who has gone to join the throng of the other side.

President Ben E. Cabell, in responding to the address of welcome yesterday, referred to the early history of the association with pride, and it was with expressive gladness that he said the body had done much for sheriffs, much for counties they represented and much for the state of Texas.

Mayor Buckley B. Paddock, in welcoming the delegates to Fort Worth, complimented the peace officers of the state and dwelt on the fact that Texas should feel happy that she has all along enjoyed a constabulary which has never reflected discredit on the grand and glorious Lone Star state, but on the contrary, has been fortunate in securing peace officers who have done their duties without fear or favor, and much to the honor and glory of the commonwealth.

The morning of the opening session was consumed in speech-making, and while an address from Col. R. M. Wynne of this city included a most cordial greeting to the officers, he went further and touched subjects which have received the notice of the sheriffs of late, and which are most important, especially at this time. The speaker declared amid applause that the mob was wrong whether it was for bread, blood or liberty, and he was emphatic in his statement that no country can prosper where the mob spirit is prevalent. He complimented the sheriffs for the work done by them in the Henderson county mob case, and declared that it commended itself to every lover of law and justice in the state of Texas, and would, so doubt, he said, mark a new era in the administration of the law, which would result in checking the mad spirit of the mob.

The convention opened for business at 2 o'clock.

**At San Antonio.**

San Antonio, Tex., July 12.—Waters continue to recede, now having fallen twenty-seven inches since Sunday. The trucks of the Sunset are above water except in places where washouts occurred, and in these places it resembles millraces.

A large force is here cribbing up the track on the west side of Bullhead bayou, where the worst washout occurred, under supervision of Mr. D. K. Colburn and Roadmaster Delane. Another force is working westward from Richmond and it is probable that by Friday morning through traffic will be resumed.

The waters north of the city are about eighteen inches higher than on the south, and vast quantities must escape through the bridges and culverts and will fall slowly.

Planters are placing orders for seed corn and cotton seed to replant.

Six drownings have occurred here.

Walter Ford, sentenced to hang at Waco on the 14th, was respite two weeks.

The Missouri Kansas and Texas railway has resumed through service.

### For Flood Sufferers.

Galveston, Tex., July 12.—H. & H. Beer of New Orleans telegraphed the following:

We will pay the market price and a premium of \$100 for the first bale of new Texas cotton this season.

We purchased the first bale last year and sent it to the president of the United States to be sold for the benefit of the United States army hospital fund and it realized over \$600 through the different exchanges. We wish to leave the disposition of the first bale of this season if we secure it to the governor of Texas, to be similarly disposed of for the benefit of the flood sufferers in that state, and hope it will do as well, if not better.

### Teachers Chosen.

Austin, Tex., July 12.—The university board of regents elected A. L. Huntington of the University of Virginia instructor in English, Miss Alice Hubbard of St. Paul teacher of Spanish, and J. H. Putnam of Leland Stanford university, California, but a native of Sulphur Springs, Tex., instructor of mathematics.

### Relief Furnished.

Austin, Tex., July 11.—The governor devoted the entire day yesterday to superintending the distribution of relief in the flooded districts.

He wired to Wharton, Wilcox, Galveston, Bee, Matagorda, Jackson, Kerr, Medina and Uvalde counties to send all contributions by those counties for the flood sufferers to L. P. Selker, Richmond, Fort Bend county.

To Jack, Coleman, Brown, Hardeman, Childress, Van Zant, Wood and Upshur counties to send all contributions to Hon. John P. Bell, Beeville.

To Bastrop, Lee, Burnet, Travis, Hamilton, Willinger, Hood and Taylor counties to send contributions to Hon. A. W. Melver, Caldwell.

To Dallas, Houston, Freestone, Leon, Madison, Montague, Llano, Jefferson and Tom Green counties to send contributions to Hon. F. L. Bradley, Hearne.

To Lamar,as, Henderson, Coryell, Erath, Eastland and Palo Pinto counties to send contributions to Hon. E. P. Curry, Brenham.

To Shelby, Angelina, Polk, Cherokee, San Jacinto, Nacogdoches and San Augustine counties to send contributions to W. N. Norwood, Sr., Navasota.

To Liberty, Bowie, Cass, Marion, Rock, Panola and Rains counties to send contributions to Hon. R. E. Hannay, Hempstead.

To Morris and Trinity counties to send contributions to Hon. R. E. Hannay, Hempstead.

To Comanche, Delta and Shackelford counties to send contributions to Hon. Joseph Bell, Bellville.

Colorado, Calhoun, Kendall and Bays counties to send contributions to L. P. Selker, Richmond.

Bosque, Titus, Franklin, Chambers, Archer, Rockwall, Orange and Runnels counties to send contributions to C. A. Adams, Bryan.

A proprietary medicine company of St. Louis wired the governor asking if help was needed from persons outside of Texas for the sufferers. The governor replied that all such contributions would be acceptable.

Among the telegrams received by the governor regarding the situation in the flooded regions was the following from John P. Bell, county judge of Austin county:

"There are 1200 flood sufferers in this county north of Mill creek, 1000 south of Mill creek, including Ward's Ben, and 350 at Wallis. The people of Bellville have cared for those north of Mill creek up to Saturday without aid from any other place. Sealy and San Felipe have received from you \$500 and 1500 rations. Wallis received 1000 rations. Bellville with her 1200 people have received no aid yet, but bought \$70 worth of meal and bacon expecting to pay for it out of the \$1000 to be received from you. Wallis is in need of food again to-morrow."

### Seed Sent.

Waco, Tex., July 11.—Mayor McCulloch received a dispatch from Gov. Bayers urging him to send cotton seed to S. Tallaferra of Houston, chairman of the relief committee, to be distributed to farmers in the flooded district. The mayor succeeded with the help of the cotton seed oil company in getting one carload at Hearne, which was forwarded at once to Chairman Tallaferra, as directed by the governor. There is an energetic movement all along the line to replant cotton where the overflow killed it, but seed is hard to get at this late day.

President Winston of the State university has resigned.

### Shot in Church.

Dallas, Tex., July 11.—Last night as the services at the First Christian church were about to close J. T. Carlisle, janitor of the high school, but soon to retire, shot and probably mortally wounded Prof. J. D. Lipscomb, one of the teachers in that institution. Carlisle claims that Prof. Lipscomb was instrumental in causing his discharge. The wounded man was removed to St. Paul's sanitarium. A revival is in progress at the church and a large congregation were present and the excitement was intense.

### Railroad Situation.

Denison, Tex., July 11.—The situation on the railroads entering Denison has improved very little since Saturday, mainly on account of the floods receding so slowly, the water having fallen about five feet in the past forty-eight hours. The Missouri, Kansas and Texas had expected to commence their repairing yesterday morning at Brookshire, but the water has not subsided sufficiently to permit of their doing so.

### River Falling.

Galveston, Tex., July 11.—The Santa Fe bridge crews went to Duke to begin the work of restoring the track. General Superintendent Resseguie spent the day at the river, and no report has reached the city.

The river at Thompson is reported to have fallen seven inches, making a total fall of fifteen inches.

Thirty cases of clothing were sent from here to Thompson, Bartlett and Missouri City.

### For Flood Sufferers.

Austin, Tex., July 10.—Gov. Bayers is giving his close personal attention to the work of directing the distribution of the money and supplies placed in his hands for the relief of the flood sufferers.

He received many letters Saturday from different points of the inundated district telling of the terrible devastation that had been wrought upon the crops and property and picturing the destitute condition of the people.

As an offset to these appeals for assistance came cash contributions from many Texas cities, towns and individuals.

That the story of the widespread ruin which has received the widest circulation and has aroused the spirit of charity in the breast of many people outside of the state in which the suffering exists is shown by the liberal cash contributions made by people of distant cities.

The noble-hearted people of Texas are showing a disposition of liberality in time of this great calamity that is good to witness.

Nearly every city in the state has raised a fund and supplies for the relief of the sufferers. Many of these are of handsome proportions, and those who unite toward making up the great aggregate will be gratefully remembered by the suffering people.

The following is a complete list of contributions received by the governor Saturday:

Mayor of Boston, \$3800; A. V. Tomlin, treasurer of the Missouri, Kansas and Texas Railway Company of Texas, at Dallas, \$1000; National Enameling and Stamping company, New York, \$1000; Hamilton-Brown Shoe Company, St. Louis, \$500; B. R. Paddock, mayor of Fort Worth, for citizens, \$500; City National Bank, Corsicana, for citizens, \$225; Wm. Cameron & Co., Waco, \$250; A. M. McFadden, Victoria, \$200; A. A. Fielder, mayor of Sherman, for citizens, \$200; A. N. Leitnaker for citizens on line of Austin and Northwestern railroad, \$152.95; R. I. Cox, for citizens of Hico, \$120.45; R. H. Brown for citizens of Tyler, \$102; Southern Cotton Oil company, Houston, \$100; Imperial Lumber company, Houston, \$100; W. T. Bailey for citizens of Denton, \$75; James O. B. Colquitt, Terrell, \$12.40; Austin Eureka lodge No. 12, Knights of Pythias colored, \$10; cash at bank at Austin, \$2; citizens of El Paso, \$45; citizens of San Marcos, \$100; James Harrington and J. T. Piper, Hillsboro, \$250.

### Monuments Dedicated.

Waco, Tex., July 10.—There was a great gathering here yesterday of Woodmen of the World, the occasion being the dedication of three monuments to deceased brethren, namely, J. S. Mills, S. N. Clark and C. A. Blom. Excursion trains came over all the roads entering Waco bringing Woodmen of over thirty camps and many ladies of the Woodmen circles. The attendance was estimated at 6000. There was a meeting in the city hall, at which short addresses were delivered by C. C. Weaver of Basca, Judge Parker of Fort Worth and others. There was music by the Fort Worth band.

After the exercises at the city hall the procession formed and marched to Oakwood cemetery, where the monuments were unveiled by J. K. Strecker, council commander of the Waco camp. Sam Clayton of Waco delivered the oration at the dedication.

Surgeon Clendennin died of yellow fever at Santiago de Cuba on the 11th.

### Assault on Anglen.

Angleton, Tex., July 10.—When the news was wired out Saturday night the water was just beginning to cover Front and Velasco streets, and by 6 o'clock it had covered the town, and gradually rose until about 4 o'clock yesterday morning.

Several rescuing parties went to Oyater creek and Bastrop bottom, relieving a great many in a most critical condition. Hundreds of negroes are destitute and are coming to Angleton as fast as rescued.

The water is from eight to fifteen inches deep in many of the business houses.

### Lost His Life.

Richmond, Tex., July 10.—Robert Reed of Galveston died from heat and exhaustion while with a boat crew doing rescue work. He was a runner for a laundry of Galveston and a native of Manchester, England, where his mother resides. The body was buried at Galveston.

### Conditional Dismissal.

Austin, Tex., July 10.—On Saturday an agreement was signed in this city between Attorney General T. S. Smith, representing the state of Texas, and F. S. Miller, general attorney of the Missouri, Kansas and Texas Railway Company of Texas, whereby the state agrees to dismiss the forfeiture suit against said company, pending in the fourteenth judicial district court at Dallas, provided defendant corporation completed certain projected extensions. The case, however, will remain docketed until the railway company complies with the conditions.

### Condition Around Richmond.

Richmond, Tex., July 8.—The river failed to fall Thursday night, as was generally expected, and the past thirty-six hours have been filled with thrilling excitement.

Last evening the water was about one inch higher than it had been heretofore.

Thursday night a special train with seventeen boats and about twenty strong, active young men, skilled in their use, came over from Eagle Lake, and after taking on a crowd from this place proceeded about half a mile east of the river and embarked for the plantations under water.

At 7:10 three boats returned with about eighteen men, women and children, who were found on a knoll.

By 11 o'clock about 115 more were rescued and sent over to town. They were all colored. Some of the rescuers had narrow escapes, and a number of boats were overturned and their occupants later taken from the trees.

During the night the town was wild over the report that Dudley Bell, teller and bookkeeper of the bank, and an Eagle Lake companion, had been washed down by the current which was running over the railroad tracks and were carried into the river. District Clerk Lon A. Hagan and Dr. S. M. Lister were in a boat just behind them, when Bell and his companion landed on an ear, but before help could be rendered the boat of Lister and Hagan capsized and flew away into the current. The two men swam to a tree, and by blowing a horn attracted the attention of others and were rescued. Yesterday morning it was reported that Bell and his partner made a landing on a houseboat, and after reaching town at daybreak yesterday again returned to the work of rescue.

This is the current rumor, but no one has found who saw them. Dudley Bell is one of the most daring and beloved young men in this country.

On account of the intense darkness and the terrible current, it would have been suicidal to have continued the work of rescue at night.

Many startling rumors are in circulation regarding the number drowned and the fate of the rescuers.

Besset Blankety and a companion were hurled out of their boat, and clung to a telegraph pole till rescued.

Two boats which left Thursday night have not yet returned, but it is hoped they are off in the fields, near some gin or house roof. They were both manned by visiting rescuers.

The colored people brought in are absolutely destitute, and the adjutant general has sent two state rangers to aid in the distribution of 10,000 rations here.

Telephone messages were received Thursday from Columbus and Waco, offering help, but the intensity of the situation was not known then and those towns were advised that assistance was not needed, but probably would be soon.

It is needed now, and needed badly.

### Rescued Man.

Galveston, Tex., July 8.—Several of those who went out on the first relief train bound for Thompson station have returned.

They went to the bridge, at that time seven feet above the water.

There were about five poles of land on each side of the bridge. They found collected there and in the plantation house about eighty people.

They brought out from these two points about seventy people, including old man Collins and his wife, who had taken refuge there from their place on the other side of the river. They reached Duke with the last load at 8 o'clock Thursday night.

### An Assault and Arrest.

Terrell, Tex., July 8.—A telephone message was received from Kaufman that a colored man had committed a riminal assault on the 10-year-old daughter of a white man named wao lives six miles southeast of Kaufman on a farm, and that the colored man was on the way to Terrell in a buggy driving a gray pony, having his wife with him and carrying a shotgun.

From the brother of the girl the following was learned: His sister lives on the farm with her father and mother. Late Thursday afternoon just before night all of the folks were away from home except the girl, and the colored man charged with the offense, who was lame, having hurt his foot several days before while working with a hay rake. The colored man's wife was also at the house. He then told his wife to go down to the cabin in the yard and make him a poultice for his foot, and as soon as she left he drew a knife on the girl and threatened to kill her if she made any outcry.

She screamed loudly for help and he again offered to kill her, and criminally assaulted her. He was caught.

### Provisions Sent.

Houston, Tex., July 8.—Yesterday morning at 9 o'clock a car carrying about 10,000 pounds of food was sent out to Whites Switch and Fulshear, where the water is rising or at a standstill.

Mr. G. G. Garrett went out with the car, and it is understood between 400 and 500 people are to be aided from the carload.

The provisions were mainly bacon, molasses and corn. The latter to be ground into meal by Mr. Garrett, who has a mill with which to do it.

## "Do Not Grasp at the Shadow and Lose the Substance."

Many people are but shadows of their former selves, due to neglect of health. Look out for the blood, the fountain of life, the actual substance, keep that pure by regular use of Hood's Sarsaparilla and robust health will be the result. Be sure to get only Hood's, because

**Hood's Sarsaparilla**  
Never Disappoints

### Boiled Water Provided.

Liberty is ahead of this country in some things, according to John W. Bookwalter, who says: "At every station on the railway there is placed in front of the station, at a point convenient of access by the passengers a large cask of cool water that has been boiled, and it is the duty of the stationmaster to see that the supply is kept up. This is free to all passengers, even to the poorest emigrant, whose comfort and welfare are provided for in many ways with thoughtful care."

Sorrow is the sequel of scandal in too many instances.

A barking dog is a neighborhood nuisance.

How strange a wife will shield a worthless husband.

### Estimate Your Bowels!

Your bowels can be treated as well as your mind, and you can be made healthy and happy by using the right medicine. All druggists, 10c. per box.

### Cats' walls at night tend to make patriots tremble.

### Faultless Starch

Is rapidly superseding the old style starches. It saves labor, saves money and makes collars and cuffs look like new. All grocers sell it; large package 10c.

A child is quite sick who refuses ice cream.

Are You Using Allen's Foot-Paste? It is the only cure for Swollen, Smarting, Burning, Sweating Feet, Corns and Bunions. Ask for Allen's Foot-Paste, a powder to be shaken into the shoes. At all Druggists and Shoe Stores, 25c. Sample sent FREE. Address, Allen S. Olmsted, LeRoy, N. Y.

Love is a subject of which one seldom gets weary.

### CRITICAL PERIODS

In Woman's Life Are Made Dangerous by Pelvic Catarrh.

Mrs. Mathilde Richter, Doniphan, Neb., says: "I suffered from catarrh for many years, but since I have been taking Pe-runa I feel strong and well. I would

Mrs. Mathilde Richter. advise all people to try Pe-runa. As I used Pe-runa and Man-a-lin while I was passing through the change of life, I am positively convinced your beneficial remedies have relieved me from all my ills."

Pe-runa has raised more women from beds of sickness and set them to work again than any other remedy. Pelvic catarrh is the bane of woman-kind. Pe-runa is the bane of catarrh in all forms and stages. Mrs. Col. Hamilton, Columbus, O., says: "I recommend Pe-runa to women, believing it to be especially beneficial to them." Send for a free book written by Dr. Hartman, entitled "Health and Beauty." Address Dr. Hartman, Columbus, O.

Remember that cholera morbus, cholera infantum, summer complaint, bilious colic, diarrhoea and dysentery are each and all catarrh of the bowels. Catarrh is the only correct name for these affections. Pe-runa is an absolute specific for these ailments, which are so common in summer. Dr. Hartman is a practitioner of over forty years, never lost a single case of cholera infantum, dysentery, diarrhoea, or cholera morbus, and his only remedy was Pe-runa. Those desiring further particulars should send for a free copy of "Semmer Catarrh." Address Dr. Hartman, Columbus, O.

A letter may not come, but the expected bill will.

**BROWN'S IRON TONIC**  
For loss of appetite, lack of energy, debility, or nervousness. It builds up the system, restores the health and vigor of youth. This celebrated tonic is a delicious and palatable food, and its effects upon the system are both invigorating and strengthening. \$2.00 per bottle. Sold by all druggists.
